

Areas of Distinction. Sai Kiran Reddy Konda.

Three achievements demonstrating ownership, delivery under pressure, and engineering at scale.

01

DIGITAL HIE INC

Led HIPAA Accreditation from Zero to Compliant in 4 Months

Led the organization through the rigorous **DirectTrust HISP accreditation** process, ensuring full HIPAA compliance. Primary technical lead responsible for end-to-end compliance documentation, security policies, operational procedures, and audit evidence covering the entire platform architecture, secure messaging workflows, **encryption**, and **interoperability** infrastructure. Achieved accreditation readiness within **4 months** while simultaneously managing daily engineering responsibilities. No external consultants. No dedicated compliance team.

- HIPAA
- DirectTrust HISP
- Secure Messaging
- Encryption
- Interoperability

02

COGNIZANT / LINCOLN FINANCIAL GROUP

Project Lead in Year One. Mainframe Migration in 6 Months. During COVID.

First project lead role with less than one year of experience. Led a high-priority modernization initiative migrating **Federal Insurance Match** and **Child Support Lien Network (CSLN)** integrations from legacy **IBM Mainframe** and **S2K databases** to automated **ETL pipelines**. Wrote hundreds of lines of production **Cobol**, coordinated **4 cross-functional teams** across **3 time zones** during COVID-19, and delivered within a compressed **6-month timeline**.

- Cobol
- IBM Mainframe
- S2K
- ETL Pipelines
- Federal Insurance

03

CAPITAL ONE

Architected Systems Serving 130M+ Accounts. Built to Survive Region Failure.

Challenged and shaped the architecture for next-generation **Transaction and Account Stores** supporting **130M+ accounts** across Card, Bank, Auto, and Global Finance. Delivered end-to-end services on **AWS** in **8 months**. Designed a reusable **code-once architecture** adopted across 4 services. Built **Terraform infrastructure** from scratch enabling automated cross-region failover from us-east-1 to us-west-2. Independently led the Transaction Store to **~98% test coverage**.

- AWS
- Terraform
- DynamoDB
- Go
- Lambda
- Multi-Region
- 98% Coverage
